

LUXE MINUTE
Luxury beauty. Last-minute prices.

PARTNER GUIDE

How to list your available appointments

Turn empty chairs into new revenue in nine simple steps.

01

Download the app

Get Luxe Minute from the App Store or Google Play, or visit luxeminute.com.au and tap **List Your Business**.

02

Create your business account

Sign up with your business email. Registration is free, with no upfront or membership fees.

03

Set up your profile

Add your business name, address, category, opening hours, photos and a short description. Great photos help clients choose you.

04

Add your services

List each service with its name, duration and normal price.

05

Create a last-minute slot

Tap to add an available appointment, then choose the service, date and time.

06

Set your Luxe Minute price

Enter your offer price. Clients see the saving against your normal price. You only discount the slots you choose, never your whole menu.

07

Publish

Your slot goes live straight away for local clients who are ready to book now.

08

Get notified and confirm

You'll be notified as soon as a client books. The appointment appears in your bookings with the client's details.

09

Keep slots up to date

Edit or remove a slot if it fills elsewhere, so clients never book a time that's gone.

Good to know

- You only pay a **10% commission** on completed Luxe Minute bookings. Listing is free.
- List a slot as soon as you know about a gap, like a cancellation or a quiet afternoon. The earlier it's live, the more likely it fills.
- **Founding Members** get priority placement and locked-in launch pricing.
